 - **Frameworks:** React, React Native, Inferno, Node, MongoDB, Express, Deno, Expo
 - **Services:** AWS, Azure, Firebase, GitHub, Google Cloud Platform
-

Experience

Full Stack Engineer at Pareto Cyber. August 2022 – Present.

A modern, wide-breadth Managed Security Service Provider.

- Pioneered converting the codebase into TypeScript for reliable user experiences.
- Trained coworkers on React and TypeScript fundamentals.
- Greatly reduced build and page load times by implementing new tools and code patterns.

Full Stack Engineer at TGStation. March 2021 - Present.

The largest and most populous open-source game. Incredibly active, boasting ~120 pull requests per week.

- Built sleek, responsive user interfaces and APIs under strict code standards.
- Individually replaced thousands of user dialog instances with secure, feature loaded alternatives.
- Working as an issue manager, quickly tested, confirmed, and resolved bugs reported via GitHub.

React Native Engineer at Ambient Noise. March 2020 - March 2021.

An audio touring application developed for Zillow that integrated Google Maps to create sound hotspots.

- Worked with clients to deliver a mobile app in an Agile development life cycle.
 - Quickly scaffolded a working prototype that fit client expectations.
 - Integrated secure cloud hosting with Google Firebase.
-

Projects

Lead Developer at Inventory Tracker. A web application for scalable inventory logging.

- Lead a team of developers to create a robust web application with cutting edge technology.
- Trained other contributors in GitHub and web development basics.

React Engineer at Financier. A comprehensive web application utilizing Plaid API.

- Implemented a proprietary algorithm to calculate financial risk based on income.
 - Developed a full-scale web application that took a new approach to financial planning.
-

Education

- **Central Washington University.** 2022 – Present. 4.0 GPA.
MS in Information Technology Administration & Management.
- **North Seattle College.** Graduated July 2021. 3.4 GPA.
BAS in Application Development.
- **Belmont College.** Graduated May 2018. 3.7 GPA.
AAS in Computer Networking.

Certificates (via Academind): Go • TypeScript • React • Express • MongoDB • NodeJS • Deno
