## PROFILE

---

Software engineer with comprehensive expertise across full-stack development. Maintainer for a 1400+ contributor open source project. Demonstrated JavaScript mastery with 6 years of experience in web applications.

## PROFESSIONAL EXPERIENCE

---

### Freelance Software Developer

07/2024 – present

*Self Employed*

- Consultant, lead developer, and mentor for multiple projects- BlueBridge Alliance, Metek Tech, Experiential AI, more.
- Worked full stack to develop cutting edge web and mobile applications for customers.
- Stack: NextJS, React, NodeJS, ExpressJS, Zod, React Native, Expo, Shadcn, Tailwind CSS, Playwright E2E, Storybook, GCP, AWS, Azure, Docker, Git.
- AI: LlamaIndex, RAG, LangChain, Python, machine learning.

### Senior Developer

03/2021 – 10/2024

*Traditional Games / TG Station 13*

- Maintained 390+ ReactJS interfaces for a large open source organization: 1 million source lines of code spanning two decades of player content.
- Implemented tools via Webpack and NodeJS for a 64% faster build time, reducing costs and improving customer satisfaction.
- Stack: React, Redux, TypeScript, Git, Github Actions CI, ESLint, BiomeJS, Bun, HTML, Bash scripts, SQL, MaterialUI, ES6.

### Full Stack Developer

10/2022 – 10/2023

*Pareto Cyber*

- Spearheaded rewriting a full stack dashboard application for internal cybersecurity management in 4 weeks.
- Eliminated tech debt with better front end architecture, leading to a 36-point increase in Lighthouse performance scores.
- Stack: TypeScript, HTML, CSS, Golang, REST API, Docker, Swimlane, AWS, EC2, Amplify CI / CD, CloudWatch, ECS, Lambda, Python, Rust, Postgres, MongoDB.

## PROJECTS

---

### Experiential AI

02/2025

*Lead developer, full stack, short term AI contract*

Built a NextJS 15 / React 19 web app and the backend with Python / Llama-Index for RAG document search over company SEC filings. Mentored interns on the project.

### Inventory Manager

04/2024

*Full Stack Web Application*

Authored an inventory management system for a local restaurant with cloud based web services using React, Express, and NodeJS. Tested REST APIs using Jest.

## EDUCATION

---

### M.S. in Information Technology Administration & Management

*Central Washington University*

### B.S. in Computer Science

*North Seattle College*

### A.S. in Computer Networking

*Belmont College*
