👤 SUMMARY

Software engineer with comprehensive expertise across full-stack development. Maintainer for a 1500+ contributor open source project. Demonstrated JavaScript mastery with 7 years of experience in web applications.

🏢 PROFESSIONAL EXPERIENCE

Full Stack Developer

01/2026 – Present

Integrate Space Corporation

Seattle, WA

- Multiplayer project management application for highly secure environments.
- **Performance:** Rewrote build tools which lead to a 97% decrease in app memory usage.
- **CI:** Orchestrated highly efficient CI/CD tools for an automated and secure development cycle - conforming to strict DoD environment requirements.
- **Stack:** NextJS, React, Golang, Postgres, AWS, Rust, GitHub Actions, ShadCN, Docker.

Senior Developer / Founder

07/2024 – 01/2026

Meridian Systems

Seattle, WA

- Small business offering software development and consulting services.
- **Payroll:** Developed a desktop application for payroll and accounting, saving a client 6 hours of administrative work biweekly. *Uses TypeScript React, Deno, Rust, Tauri.*
- **TGUI:** Established a UI component library that achieved 4k weekly downloads. Ensured reliability through testing with StorybookJS. *Uses Bun, BiomeJS, Rslib.*
- **Experiential:** As a founding developer for a fintech startup, crafted a custom ETL pipeline for financial analysis and insights, mentoring 5 developers. *Uses NextJS, Python, Azure deployment, GitHub CI, Docker.*

Senior Developer

03/2021 – 10/2024

Traditional Games / TG Station 13

- 501(c)(3) non profit organization for building and mentoring in open source software.
- **UI:** Promoted to senior developer of UI after one year of contributing excellent interfaces and mentoring users on TypeScript.
- **Tools:** Implemented tools via Webpack and NodeJS for a 64% faster build time, reducing costs and improving customer satisfaction.
- **Stack:** React, Redux, TypeScript, Git, GitHub Actions CI, ESLint, BiomeJS, Bun, HTML, Bash scripts, SQL, MaterialUI, ES6.

Full Stack Developer

10/2022 – 10/2023

Pareto Cyber

- A cybersecurity startup and managed security services provider (MSSP).
- **Tools:** Spearheaded rewriting a full stack dashboard application for internal cybersecurity management in 4 weeks.
- **Performance:** Eliminated tech debt with better front end architecture, leading to a 36-point increase in Lighthouse performance scores.
- **Stack:** TypeScript, HTML, CSS, Golang, REST API, Docker, Swimlane, AWS, EC2, Amplify CI / CD, CloudWatch, ECS, Lambda, Python, Rust, Postgres, MongoDB.

🎓 EDUCATION

Master of Science in Information Technology Administration & Management

Central Washington University

Bachelor of Science in Computer Science

North Seattle College

Associate of Science in Computer Networking

Belmont College
